Paroles :

She was your light and she had your heart	For the first time in your life, you felt alive
The moment you saw her, she was the one	You better cry man, cry man, it only means you
You were just a kid and never felt the heat	care
First love is deep when you don't expect it	You better cry man, you better love man
For the first time in your life, you loved so much	You better love man, love man, it only means you
you could die	share
For the first time in your life, you saw her, you	You better love man, you better cry man
could fly	You better cry man, cry man, it only means you
For the first time in your life, you loved her, she	care
loved you back	You better cry man, you better love man
For the first time in your life, you felt alive	You better love man, love man, it only means you
You better cry man, cry man, it only means you	share
care	You better love man, you better cry man
You better cry man, you better love man	Don't give up the love around you
You better love man, love man, it only means you	Don't give up and tryna heal up
share	Don't give up the feeling in ya
You better love man, you better cry man	Don't give up and try to stand up
You better cry man, cry man, it only means you	Don't give up the love around ya
care	Don't give up and tryna heal up
You better cry man, you better love man	Don't give up the feeling in ya
You better love man, love man, it only means you	Don't give up and try to stand up
share	You better cry man, cry man, it only means you
You better love man, you better cry man	care
Dancing in Rio, living the dream	You better cry man, you better love man
Before the time goes and takes the lead	You better love man, love man, it only means you
After a while, yeah, she had to go	share
In another country away from you	You better love man, you better cry man
For the first time in your life, you loved so much	You better cry man, cry man, it only means you
you could die	care
For the first time in your life, you saw her, you	You better cry man, you better love man
could fly	You better love man, love man, it only means you
For the first time in your life, you loved her, she	share
loved you back	You better love man, you better cry man
