Paroles :

We drive through the woods, rich neighborhoods to watch We joked as we looked that they were too good for us 'Cause socially speaking, we were the same With runaway fathers and mothers who drank A tale old as time, young love don't last for life And now I know, now I know It's time to go, it's time to go We've traveled the seas, we've ridden the stars We've seen everything from Saturn to Mars As much as it seems like you own my heart It's astronomy, we're two worlds apart we're two worlds apart (It's astronomy) we're two worlds apart From far away, I wish I'd stayed with you But here, face to face, a stranger that I once knew I thought, if I wanted, I'd fall back in love You said, "Distance brings fondness", but guess	not with us The only mistake that we didn't make was run (Now look what we've done) We've traveled the seas, we've ridden the stars We've seen everything from Saturn to Mars As much as it seems like you own my heart It's astronomy, we're two worlds apart we're two worlds apart Stop trying to keep us alive You're pointing at stars in the sky that already died Stop trying to keep us alive You can't force the stars to align when they've already died Oh, we've died, ooh-oh-oh Oh, we've traveled the seas, we've ridden the stars We've seen everything from Saturn to Mars As much as it seems like you own my heart It's astronomy, we're two worlds apart
